and connect with them. Find out about active programs and confirm contact information.

- **RAPIDSOS/IAMRESPONDING CONVERSATION**

Brad spoke to RapidSOS with Natalie. RapidSOS owns IAMRESPONDING. RapidSOS has offered IAMRESPONDING to TERT free of charge in each state. They want to start small with the most active states first to test it. There would be a dashboard that all could see what was going on and everyone's status. Confirmed it will remain free and never a charge for TERT. Jason asked that once Brad gets theirs going if they can give NJTI a demo.

- **STATE COORDINATOR MONTHLY CALLS**

Washington State had asked if NJTI still had monthly calls with State Coordinators. Brad and Jason said that this hasn't taken place in years. Rebecca suggested doing it once a quarter or every so often instead of monthly. Jason- after the FEMA regions confirm info for state coordinators we can look at reaching out about doing quarterly calls. Brad- hoping to do call in Spring before hurricane season. Chris- suggested doing regional states together and work up to a bigger one.
